You Can Design This Machine Guard In 2 ½ Hours…

Or In Just 14 Minutes.

Send For Our FREE Design Software And See For Yourself.

Designing a machine guard, frame or enclosure can be a very time-consuming and frustrating experience. Any errors, omissions or miscalculations can result in a structure which is cumbersome to use, doesn't fit the application, or is totally useless. Our new *FrameQuoter* design software eliminates these problems, and helps you create the ideal structure, quickly and easily.

FrameQuoter Software Decreases Design Time By Up To 92% And Eliminates Errors, Omissions and Hassles

Actual field studies have shown that our new *FrameQuoter* design software will drastically reduce the amount of time required to design a machine guard or frame. And because we have simplified and/or automated many functions ("snap-in-place" corner brackets, automatically includes necessary machining, nuts, bolts, etc.), you will have less errors, mistakes or hassles. You can be assured that every structure you design will be right the first time, every time.

Easy To Learn, Easy To Use

This was the #1 design criteria. With even a basic knowledge of AutoCAD 2000, you will quickly master *FrameQuoter*. We have shortened and/or eliminated many of the steps necessary with other design software packages by using simple icons and drop-down menus. A complete Bill of Materials is also only one mouse click away.

Incredible Life-Like Full-Color Graphics

FrameQuoter is the only design software package that enables you to develop wireframe, hidden and shaded drawings in 2D and 3D, in both simplified and detailed views. The "Detailed-Shaded" view shows you the final assembly with incredible detail & clarity:

Actual Screen Shot:

The Possibilities Are Endless

If you can build it with aluminum extrusions, you can design it with *FrameQuoter*. People have designed wall racks, workstations, tables, machine bases, machining stations, clean room enclosures, tool fixtures, and much more. Unlike other design packages, *FrameQuoter* enables you to employ every FRAME-WORLD extrusion, and every bracket and accessory into any drawing. You can even add non-FRAME-WORLD parts to the Bill of Materials!

Request Your FREE Copy Of *FrameQuoter* Today

Just go to info@frame-world.com; enter "FrameQuoter" in the subject line, and give us your name, company name and address. A free *FrameQuoter* CD will be sent out to you right away. (For a free catalog, simply also put "Catalog" in the subject line)
