

You Can Build This Entire Safety Enclosure
In Under One Hour

(Instead of 9-10 Hours Using Traditional Methods)

Greetings!

New **FastFrames** pre-assembled panel and door modules let you build machine guards, enclosures or safety perimeters in a fraction of the time! The modules can be bolted together in minutes, versus hours (or days) welding steel or assembling individual aluminum extrusions and accessories.

- Easy to order
- No engineering or CAD design
- No welding

- [What Are FastFrames Modules?](#)
- [Why Use FastFrames?](#)
- [World Premiere at Assembly Technology Show](#)

- No components to specify, sort or pre-assemble

*What Are **FastFrames** Modules?*

Pre-assembled panels and doors constructed of heavy-duty 1.5" x 1.5" aluminum extrusions, with wire mesh or clear Lexan inserts.

*Why Use **FastFrames**?*

Simple To Order

Each panel or door is ordered using just one single part number.

Easy To Configure & Install

1. Measure the area to be guarded
2. Order the size panels and doors you need
3. Unpack and connect modules together in minutes!

Save Time and Money

- Specify, order and install complete guards and enclosures in 10% of the time
- No engineering, CAD work or sub-assembly

World Premiere at Assembly Technology Show

The official unveiling of this revolutionary new concept in guarding will be at the Assembly Technology Expo, September 23-25, 2003 at the Rosemont Convention Center (Booth #20001). Or, please contact us via phone or email for a more detailed product description.

FastFrames - The fastest guarding and enclosure system available today!
